

Bash Branching

Conditionals

```
if condition; then  
|   commands  
elif condition; then  
|   commands  
else  
|   commands  
fi
```

Expressing Conditions

- [\$var1 == \$var2] - string comparison
- numerical comparison
 - -eq
 - -le
 - -ge
 - -lt
 - -gt
- To combine, both are in brackets and combine with &&
- Can also do arithmetic for condition
 - ((mynum1<mynum2))
