

Bash Loops

Loops

- Example lists:
 - 0 1 2 3 4
 - word1 word2 word4
 - {start...stop...step}

```
for val in list
do
    commands
done
```

Loops (continued)

- can leave out in list part --> loops through arguments
- While loops:

```
while condition;  
do  
|   commands  
done
```
